## SUMMARY

---

Computer Science student at the University of Utah (3.66 GPA) with hands-on experience building full-stack, mobile, and cloud-deployed applications. Five-plus years leading teams of 20+ in high-volume environments. Seeking a software engineering internship to contribute to real-world systems while growing skills in cloud infrastructure and secure application development.

## EDUCATION

---

### University of Utah — Bachelor of Science in Computer Science, Math Minor

January 2023 – Present | Expected Graduation: December 2026 | GPA: 3.66

**Topics:** Algorithms, Data Structures, Database Systems, Web Development, Mobile Development, Computer Security, Computer Architecture

### Salt Lake Community College — Associate of Science in Computer Science & Information Systems

August 2021 – August 2023 | GPA: 4.0 | President's List, Graduated with High Honors

**Certificate of Proficiency** in Web Programming and Development

## PROJECTS

---

### Canvas LMS Remake

Built a full-featured learning management system using a Django backend, deployed on AWS. Follows MVVM architecture; supports course management, assignments, and user roles.

### Spreadsheet Software

Developed a functional spreadsheet application in C# using .NET MAUI with formula parsing, cell dependency graphs, and MVC architecture.

### Agario Remake

Created a peer-to-peer online multiplayer game replicating Agar.io using .NET MAUI and Qt, handling real-time networking and game state synchronization.

### Hubble — Reading App, Capstone Project (In Progress)

Collaborating with a team to build a human-centered reading app in React Native with Expo and Supabase. Personally responsible for Supabase connectivity, database APIs, and user authentication. Deployment via Vercel.

## SKILLS

---

**Languages:** Python, Java, C#, C, C++, JavaScript, Assembly

**Web & Frameworks:** React, React Native, Django, FastAPI, .NET, HTML, CSS, PHP

**Databases:** MySQL, Supabase, MongoDB, Firebase | **Concepts:** ACID, normalization, diagramming

**Cloud & Tools:** AWS, Git, Linux, Expo, Vercel

**AI Tools:** Claude, Claude CLI, ChatGPT, Cursor

**Cybersecurity:** Cryptography, network protocols, attack/defense principles, secure application design

**Concepts:** REST APIs, MVVM/MVC, OOP, database design

**Soft Skills:** Team leadership, conflict resolution, training & onboarding, cross-functional communication

## WORK EXPERIENCE

---

### Old Spaghetti Factory — Restaurant Supervisor | Taylorsville, UT

July 2019 – Present

- Led and supervised a team of 20+ staff across high-volume shifts serving 300+ customers per shift.
- Trained and onboarded new hires, coaching performance and reducing ramp-up time through structured training.
- Ensured compliance with local health regulations and company policy through administrative oversight.
- Resolved customer issues and built long-term relationships, contributing to strong retention rates.
